Whomsoever It May Concern

The sound system in Thiruvarangam Church was not up to the mark. I constantly received complaints from the people that it was not sufficiently audible and clear. We used to get whistling sound often. Hence, we dismantled the entire old sound system and installed a new and compact one with the help of ASD ESTABLISMENT, Bangalore. Now it is audible and clear. I am happy with the present set up and the people are very satisfied. In addition, it was very pleasant to work with Mr. Arockiasamy and his team. They have done everything with professional skill. They are very approachable, understanding and flexible. They patiently addressed our concerns and installed the sound system accordingly.

(Fr. S. Sebastian)
